

Face Body Spirit COVID-19 Safety Protocols

(updated 5-9-21)

As we comply with the Covid-19 safety protocols, our goal is to offer you the highest quality massage in a relaxed, private setting. Following are the protocols to which we adhere and related information.

- Please call or text us from your car to let us know you are here. We will instruct you to meet us at the side entrance door for a touchless temperature check and a brief Covid assessment.
- Please wear a mask/face covering or we can provide you with one. Hand sanitizer or soap and water will be available to freshen up.
- The treatment room is minimally furnished and extra time is allowed in between appointments for all surfaces to be cleaned and sanitized. All linens/blankets are changed. We use a HEPA air purifier with virus-removing filters, which remains on at all times.
- We strictly use only cleaning and disinfecting products that have been EPA approved for coronavirus SARS-CoV-2.
- Both you and your massage practitioner are still required to wear a mask. When you are facing down on the treatment table, you may remove your mask, as we will create a pillowcase hammock to catch your aerosols. It protects, yet allows you to breathe if that's more comfortable for you.
- You will need to kindly review and sign a COVID-19 liability waiver prior to your session.
- Please do not schedule an appointment within 10 days of traveling to areas of high COVID-19 impact or traveling internationally. If you or someone in your household is awaiting a COVID-19 test result, please do not book an appointment for at least 10 days. If you are fully vaccinated this may not apply to you.
- We are not offering couples Oasis foot soaks at the moment. We will keep you informed when restrictions are lifted. Meanwhile, foot soaks for "one" are back on our menu.

Thank you!

Claudia & Andrea
